

ENRICHMENT CENTRE (MUSIC & MOVEMENT)

CANRIDGE RIGHT BRAIN DEVELOPMENT CENTRE

Learning Through Music And Expression

Children learn at an astonishing rate and this capability of theirs is emphasised even further when they're allowed to express themselves. Canridge Music Class, which is a segment of the Canridge Brain Development programme, was created just for that, providing them the opportunity to connect with other children through songs, dance and movements. From an educational point of view, there isn't a more enjoyable way for children to enrich their vocabulary and concentration than when playing musical instruments and memorising the lyrics to a song. Meaningful role plays as well as puppet shows provide endless fun to pique little ones' interests in music lessons. There are also lots of parent-child bonding moments to be cherished during the parent-accompanied classes.
